1. Introduction

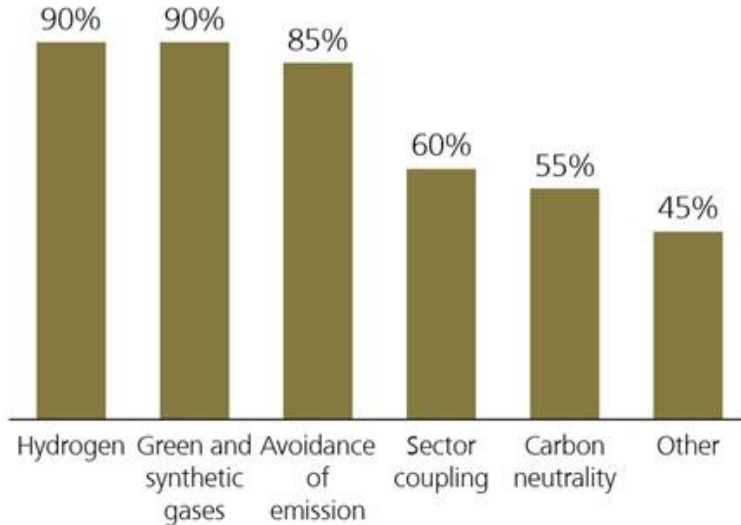

- Marcogaz Members identified three core areas for improvement:
 - EUPolicy participation
 - **Communication and Networking**
 - **Focus on future energy solutions**
- The areas of improvement will strengthen Marcogaz on:
 - Improved visibility
 - Improved credibility
 - Transparent and trustworthy organization
 - Increased number of involvement on joint projects
 - Better contribution to the industry towards decarbonised energy systems

2 Results of the survey of March 2020

Survey result

Question 7: If you answered YES to the previous question, please indicate the relevant fields of topics that should gain more attention

Number of responses: 20

Key findings

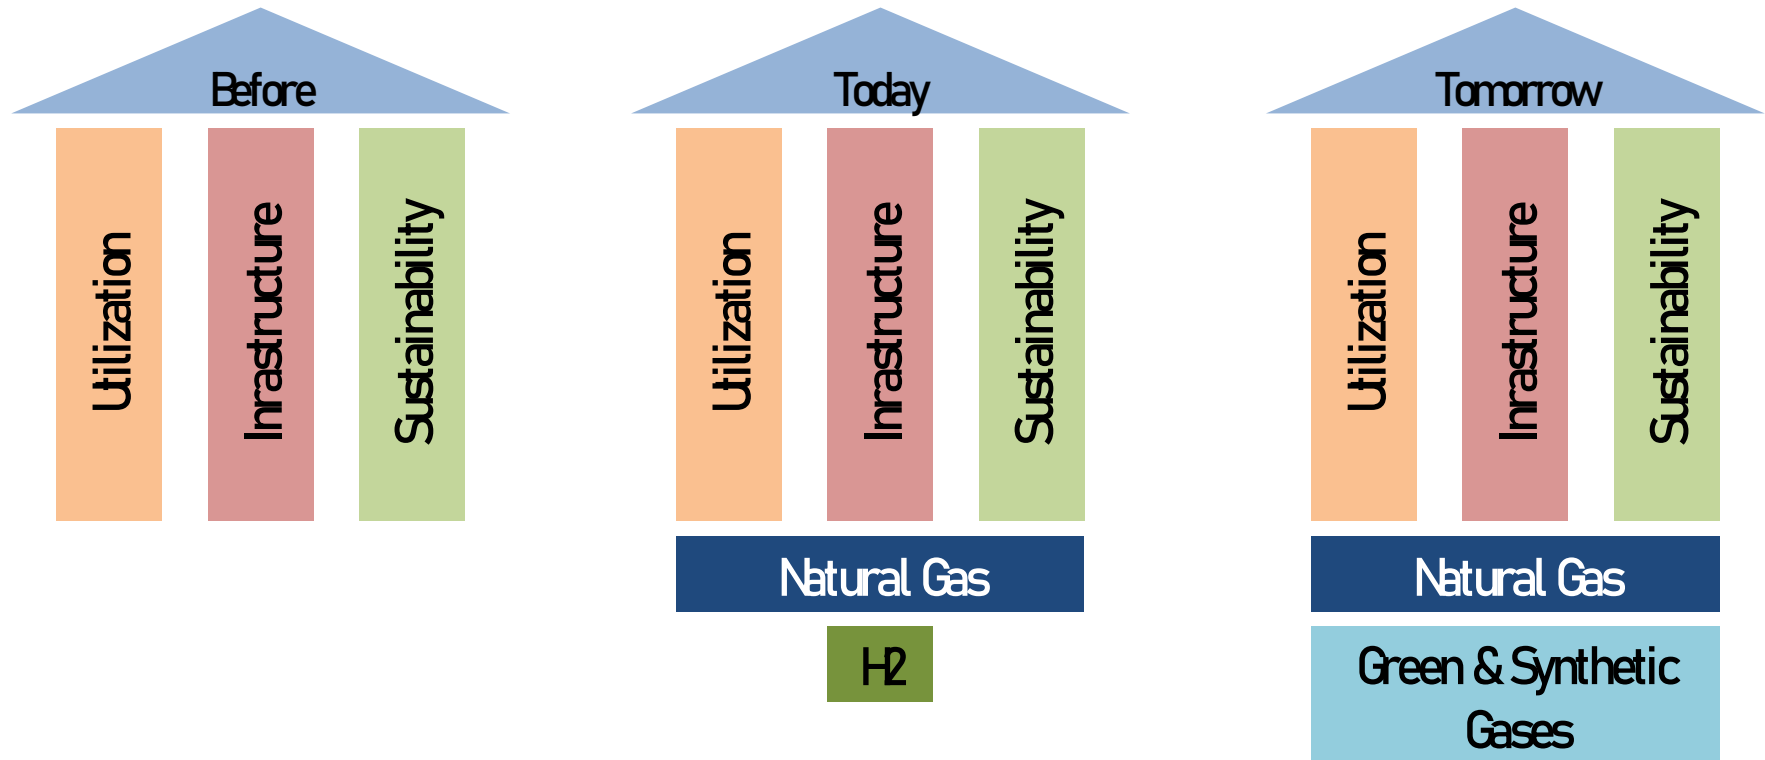

- Almost all of the captured survey responses list hydrogen, green and synthetic gases as well as avoidance of emissions as topics to gain more attention
- After that sector coupling and carbon neutrality follow
- Other topics were usually named only once with the exception of air quality (2)

Comments from members

- Air quality (2)
- Various other topics with one naming each for example: metering of mixed gases, utilization or re-purposing of existing gas infrastructure in Europe and storage and use of hydrogen and green gases and power-to-gas installation and approval processes
