

JOB DESCRIPTION TECHNICAL ADVISOR

ABOUT MARCOGAZ

MARCOGAZ represents the interests of national and European gas associations as well as individual gas companies' members spread across Europe. Our association has built its reputation over the past five decades, working closely with the gas industry, official bodies within the European Union and other influential partners.

With the support of its working groups of technical experts, MARCOGAZ works towards accelerating the energy transition and achieving the EU's 2030 and 2050 climate objectives. MARCOGAZ is actively involved in concrete initiatives and programs to ensure the sustainable, safe and efficient development of natural gas and new gases including hydrogen and biomethane and the sector integration in Europe.

THE POSITION

MARCOGAZ is looking for a highly motivated, proactive and committed full-time **Technical Advisor** who is passionate of the development of renewable and low carbon gases to join a small and dynamic team in Brussels. The jobholder will be reporting to the Secretary General.

Key Tasks:

- Support the Secretary General on the elaboration of strategic and operational matters and on the implementation of decisions from the Executive Board and General Assembly.
- Lead the work of technical committees and working groups in delivering insightful technical content on energy transition.
- Lead the work of MARCOGAZ on standardization in internal expert groups and with CEN/ISO/OIML.
- Represent MARCOGAZ in technical meetings organized by the European Commission, gas stakeholder groups including GIE, Eurogas and ENTSOG.
- Lead the coordination of work on regulation of methane emissions and regulation on hydrogen.
- Prepare and review technical content on natural gas and renewable gases like hydrogen, biomethane and other low-carbon gases, on both operation and management perspectives.
- Facilitate the liaison between MARCOGAZ and the European Commission, gas industry stakeholders and standardization bodies.
- Assist the technical committees on data collection, analysis and reporting.
- Assist the technical committees in the organization of meetings, workshops and technical forums.
- Facilitate the flow of information and motivate collaboration between internal technical committees.

Required Profile:

- The ideal candidate has a degree in Engineering, Physics or related technical fields, from a well ranked University. Applicants with non-technical degrees but with relevant experience in the gas sector will be considered.
- At least 3 years of work experience in the gas sector.
- Knowledge of renewable gases and low carbon gases such as hydrogen, biomethane and synthetic gases technologies is a plus.
- Familiarity with operation and management of the midstream and downstream gas systems and end use of gas is considered a valuable asset.
- Knowledge of the European energy policies and regulation framework.
- Excellent proficiency in English (written and spoken) – at C1/C2 level. A second European language is not required but is considered as an advantage.
- Ability to work in a multicultural environment, with a positive personality, a team player mindset and open to regular work trips within Europe.
- Strong interpersonal skills, with a sense of diplomacy to manage the relations between people and associations in a European environment.

OUR OFFER

This position offers an excellent opportunity to influence the gas industry and the EU policy making while participating in helping the gas sector achieving the decarbonisation objectives.

We offer:

- A full-time job with a competitive compensation package, commensurate with experience.
- A dynamic and collaborative work environment in the center of Brussels European quarter.
- Possibility to develop a long-lasting network in the Brussels policy environment.
- Flexibility to work remotely.

HOW TO APPLY

Applicants must have the right to work in Belgium. To apply, please send a motivation letter (**one page**) and Curriculum Vitae in .pdf format by email to: HR@marcogaz.org

Please entitle your application email “**Application for Technical Advisor**”.

Interviews will be conducted on continuous basis as soon as we receive an application fitting the requirements until the right candidate is identified.
